

**VOICES OF HOPE**

## **LUNCH & LEARN**

**OCTOBER 15**

Voices of Hope, Inc. supports people impacted by addiction by connecting them with the resources they need for sustained recovery and

by combating stigma with education. They work to mobilize the community to support recovery from addiction by improving access to services and reducing stigma and overdose deaths.

On Sunday, October 15, we will have the chance to learn about Voices of Hope and explore any way that we individually or as a church night partner with them in their work. Join others in the Fellowship Hall following worship for lunch and presentation.

*Ministry Opportunity: Looking for someone(s) to pick up lunch supplies – can be simple sandwich makings – and have ready following worship. Please contact the office if you can help out!*
